Subject: Monsanto personnel change

All:

Just wanted you all to know that I am moving on to a new opportunity. I'll still be doing

regulatory, and will still be in DC, but doing something a bit bigger and focusing on a different area of agriculture going forward. As such, I'll no longer be your main point of contact for Monsanto after next Friday, August 12th.

I have sincerely enjoyed working with all of you over the last 6+ years and very much appreciate the role you play as civil servants in our regulatory system in ensuring our food and feed supply is safe and our environment is protected, while moving innovation forward for US agriculture. I value our relationships and sincerely hope we can keep in touch. My cell phone will remain the same and my personal email is

Ex. 6 - Personal Privacy

In the mean time, please use Dr. James Nyangulu as your main point of contact for most things. James has been working for me for the last year and many of you have met him. James formerly worked for Monsanto in our Ottawa office and for Pest Management Regulatory Agency (PMRA) in Canada before that. I have included James' contact information below.

For any questions regarding glyphosate as it relates to the upcoming SAP, please use Dr. Amelia Jackson-Gheissari. Amelia has been working for me since November and many of you have met her as well. Amelia formally worked for Givaudan, Syngenta and FMC. I have included Amelia's contact information below as well.

James Nyangulu
